NOTICE

CITY OF SANFORD RESIDENTS

It is the responsibility of the Public Works Department to prevent safety hazards which can be harmful to both pedestrian and vehicular traffic to the best of our ability. The department would like to communicate to its residents the following ordinance.

"Sec. S.8 Dumping of snow or ice on public ways. Whoever unreasonably deposits or dumps snow or ice within the limits of any public way within the built-up sections of the City of Sanford, except upon the written authority of the municipal officers. shall be punished by a fine of not more than FIFTY DOLLARS ($50.00)." Some of the infractions that fall within the realm of this ordinance include:

Obstructing Pedestrian traffic on sidewalks by placing snow on sidewalks.
Placing snow **in the** road or **within the** shoulder of a road.
Pushing snow across a City maintained way.
Clearing of snow/ice from a vehicle within a City maintained way..

Our first priority is to open the City's main roads. Those roads are routes that the City has found to have the heaviest year round traffic. AFTER all streets have been plowed then the City plows certain sidewalks in the same manner as roads. Sidewalks along all main roads, business districts, schools and churches are plowed as soon as possible. When people deposit snow in the sidewalk and/or right of way, it is much more difficult and time consuming for our employees and equipment to be able to clear the snow in a timely fashion.

It is important that all plowed right-of-ways within the City limits be kept clear of obstructions. Therefore, it is the obligation of all owners and occupants for property in town to make sure that their mailboxes or any other structures within the City's right-of-ways are there at the owner's risk. Neither the City nor the Plowing Contractors accept any responsibility for damages to said structures such as mailboxes, fences, walls, etc. within the City's right-or-way by plows or sand trucks.

The Public Works Department is requesting everyone help us ensure that vehicular and pedestrian traffic have a safe winter season.
