Annual Town Report
Prepared for the Citizens
of
Sanford / Springvale
Maine

This Annual Town Report is Dedicated to

William E. Roberts
January 7, 1922 - January 13, 2008

William E. Roberts was a town father in the best sense of the word. He was born in Springvale and was a 1940's graduate of Sanford High School. After attending Tilton Junior College and Farmington Normal School, he returned to Springvale in 1943 to work in the family business alongside his mother.

He enlisted in the Navy in 1944 and joined the war effort as a Radar Operator on the USS Cleveland. Following WWII, he spent the next 50 years working in the family home heating and hardware business.

Bill had a long history of service to his community as an elected and appointed official. He was a Town Meeting member for 40 years, served on the warrant committee for 4 years and in 1996, was elected to the Board of Selectman. He served in this position for 8 years and was Chairman of the Board for seven of those years.

For his Many Years of Dedicated Service to His Country and This Community

STATE OF MAINE
 OFFICE OF THE GOVERNOR
 1 STATE HOUSE STATION
 AUGUSTA, MAINE
 04333 -0001

JOHN ELIAS BALDACCI

GOVERNOR

Dear Sanford Residents:

I'm proud to be the Governor of Maine, home to hardworking, generous people. All Maine families must have opportunities where they can prosper now and in the future. My job as your Governor is to provide the vision for a better tomorrow and build on the successes of today.

These are challenging times. The continuing national housing crisis, credit crunch, war overseas and rising energy costs have stressed family pocketbooks as well as municipal and state budgets. I believe we need to find efficiencies in the way government does business, providing high quality service that Maine people deserve. While recent state budget decisions were tough for us all, it was important that we worked to build a government that we can afford and that continues to provide the important services that our people expect. We needed to be on firmer financial footing moving forward, addressing short-term fiscal problems while also staying on the path of sustainability in the future - prioritizing spending and investing in job growth.

I encourage you to share with me your thoughts and concerns. My Web site, www.maine.gov/governor provides a great deal of information, and offers ways in which you can provide feedback. Additionally, feel free to call my office at 287-3531, e-mail at governormaine.gov, or send me mail at 1 State House Station, Augusta, ME 04333-0001.

Best wishes to you in the future.

Sincerely,

 John E. Baldacci
 Governor

COMMITTEES:
COMMERCE, SCIENCE, AND
TRANSPORTATION
OCEANS, ATMOSPHERE, FISHERIES AND
COAST GUARD SUBCOMMITTEE
FINANCE
INTELLIGENCE
RANKING MEMBER, SMALL BUSINESS

Dear Friends,

Thank you for this opportunity to offer my best wishes and warmest greetings as the Town of Sanford proudly looks ahead to 2008. With the New Year upon us, many of us have no doubt made resolutions that we will be striving to keep. For my part, I have renewed my pledge to tirelessly serve you as your Senior Senator in the United States Senate and to do so always with our great state of Maine at the forefront of every issue I consider and decision I make.

Our challenge, as Mainers, will be to build on the successes of 2007 evident in many parts of our state. In the past year alone, we've witnessed progress in sustaining and providing employment opportunities from Aroostook County with the location of Maine Mutual Group's headquarters in Presque Isle, to York County with the welcomed presence of Pratt & Whitney and Saco Defense – with advancements in both small business and in the industrial sector of our economy. We've seen developments from the City of Brewer with the leadership of Cianbro at the old Eastern Fine Mill to manufacture infrastructure for the oil industry, to Belfast with the recent announcement of AthenaHealth where Mainers will help the health care industry operate more efficiently. There have been signs of economic resurgence in places such as Auburn with the recent announcement of Safe Handling, Inc., Maine's first ethanol manufacturer, and in Madison with the unique nature of Backyard Farms where tomatoes are being grown in a new way in our state. But no matter the town or city in our state's sixteen counties, Maine's legendary can-do spirit, work-ethic, and ingenuity remain indispensable to furthering innovation and new ventures.

Certainly, we recognize that many hurdles remain in ensuring a strong economic future for all our citizens – and I will continue my steadfast work to improve the quality of life for Maine's hardworking people. That's why, as Ranking Member of the Senate Committee on Small Business and Entrepreneurship, I redoubled my efforts to extend the vital New Market Tax Credit program through 2009, enabling critical economic investments throughout the state to add vital jobs – and I have introduced and championed legislation to spur our economy through much-needed incentives. And there are many other issues that must be addressed in this New Year – from the ongoing war in Iraq to sky-rocketing energy costs. We must continue to improve the security of our homeland; tackle the pressing issue of access to affordable, quality health care; address the pervasive housing crunch and persistent credit crisis; confront and reduce the impact of global climate change; and lessen our dependence on foreign oil. In fact, Congress made a tremendous stride in passing a provision, which was enacted into law, that I helped spearhead to improve vehicle fuel efficiency for the first time since 1975. Yet, we must continue fighting to ensure assistance for those most vulnerable to the high cost of heating their homes. And, above all, we must focus on forging solutions!

Thank you again for allowing me the enormous honor of representing you. I strongly encourage you to continue that dialogue by visiting www.snowe.senate.gov or phoning toll free in Maine at 1-800-432-1599.

Sincerely,

OLYMPIA J. SNOWE
United States Senator

WASHINGTON, DC 20510-1904

January 2008

Dear Citizens of Sanford:

As we mark the beginning of 2008, I welcome this opportunity to share some of the work I've done during the past year representing Maine in the United States Senate.

Maine plays a critical role in our national security through the men and women who serve in our active duty forces and our National Guard and Reserves and through the skilled employees who work at our defense businesses and installations. As a member of the Senate Armed Services Committee, I successfully supported the vital work at Bath Iron Works, Pratt & Whitney, the Portsmouth Naval Shipyard, and the Defense Finance and Accounting Center, as well as at smaller companies like Hodgdon Yachts and Global Research Technologies.

On the Senate Homeland Security Committee, I have worked to better protect our nation against the threat of terrorist attacks and to strengthen the federal partnership with our emergency managers and first responders in responding to natural disasters. The disruption of terrorist plots last year and the improved federal response to natural disasters, such as the Patriots' Day storm here in Maine and the wildfires in California, demonstrate that these efforts are producing real results. Building on our past successful efforts to reform the intelligence community and to increase security at our nation's seaports and chemical facilities, I worked with Senator Joe Lieberman again, to gain approval of a new law further strengthening our homeland security.

With so many pressing needs in this country, we cannot afford to see taxpayers' dollars lost to waste, fraud, and abuse. Working with the Inspectors General, I have written a bipartisan bill to reform wasteful government contracting practices. The Senate approved this bill in November, and I hope it will become law later this year.

Congress last year passed several bills that I advocated to improve health care, expand aid for education, and protect our environment. These include increased funding for the program to expand access to dental services in rural communities, additional funding for diabetes research, and an extension of a tax deduction for teachers. As a member of the Special Committee on Aging, I worked to create a Task Force on Alzheimer's Disease and introduced a bipartisan bill to block cuts in home health care.

Record-high energy costs are imposing a tremendous burden on our low-income families, truckers, and small businesses. With a bipartisan coalition of Senators, including Olympia Snowe, I fought for increased funding for the Low-Income Home Energy Assistance Program (LIHEAP). We secured a \$400 million increase over last-year's level and will continue to press for additional funding. I also have called upon the Department of Energy to stop buying oil for the Strategic Petroleum Reserve until prices moderate. There is no compelling justification for the Department to take oil off the market at a time when prices are sky high and consumers are struggling to heat their homes and fill their gas tanks.

We need to embrace the goal of energy independence to reduce our reliance on imported oil by developing bio fuels, such as cellulosic ethanol, by increasing fuel efficiency standards for vehicles, and by supporting research into better technology. The new energy law takes significant steps in the right direction.

I am grateful for the opportunity to serve the great State of Maine. If ever I may be of assistance to you, please do contact my York County office at 283-1101.

Sincerely,

Susan M. Collins

 PRINTED ON RECYCLED PAPER

ANNUAL REPORT TO THE TOWN OF SANFORD
A Message from State Senator Jon Courtney

Dear Friends and Neighbors:

I would like to tell you what an honor it has been to serve as your State Senator. You, and the citizens of Sanford, have entrusted me with the job of representing you in Augusta, and I take this responsibility very seriously.

The Second Regular Session of the 123rd Maine Legislature convened on Wednesday, January 2, 2008, at 10:00 a.m. During this session, only bills approved by the Legislative Council are allowed to be considered by the Legislature. Of the 575 bill requests, 174 Legislators' bills were allowed in as well as another 47 submitted by the Governor's Departments and Agencies. In addition, there are 169 bills carried over from last session that still require legislative action.

Although the second session is a short one, we have considerable work to get through before we adjourn. Some of the issues we will be dealing with include: increasing the time between car inspections to two years; requiring boat operators to take a boating safety course; clarifying whether the state can tax meals offered at summer camps; banning smoking in cars with children; and ensuring children's toys meet safety requirements.

We will also consider legislation to provide tax relief and at least two bills to correct some of the flaws with the school consolidation law. The Governor's latest plan to take over the county jails is likely to be one of the most controversial bills of the session.

As a member of the Joint Select Committee on Future Maine Prosperity, I am pleased that we were able to issue a unanimous report that makes specific recommendations to lower our tax burden, streamline our government and invest in our future. It is now up to the Legislature as a whole to adopt these recommendations that will set the state of Maine on a sound economic course. I will work hard to make sure that the Legislature follows through with this bi-partisan proposal.

Once again thank you for the opportunity to serve as your State Senator in Augusta. I look forward to hearing your input on these important issues. I can be reached by phone at 324-5467 or 287-1505 or by email at joncourtney@metrocast.net.

Sincerely,

Jon Courtney
State Senator

April 2008

Dear Friends & Neighbors:

By week's end lawmakers will have adjourned their First Special Session for the 123rd Legislature. Since convening for the Second Regular Session in January it has been a pleasure hearing from so many of you on those issues being deliberated in Augusta. Assuredly, your insightful input enabled me to better serve the people of District 144. In spite of the many economic downturns we hear and read about on the national, state, and local levels, I remain confident that our best times are still to come.

As you are undoubtedly aware, one prominent policy matter demanded a great deal of time and discussion. A revenue shortfall totaling \$190 million was ultimately reconciled without tapping the State's Budget Stabilization Fund. Under the terms of the supplemental budget passed to solve this fiscal dilemma, State Treasurer David Lemoine will begin selling off securities and claiming other assets that have gone unclaimed for two years instead of three years, as is currently the case.

One of my greatest priorities since receiving the list of unclaimed belongings has been to reconnect constituents with their lost possessions. Should you desire to determine if you have assets in the State's inventory of unclaimed property, I would encourage you to visit the Office of the State Treasurer's Web site at https://www.maine.gov/treasurer/unclaimed_property/online/. In the event you have difficulty accessing the information posted online, please feel free to contact me.

During my incumbency on the Judiciary and Legal and Veterans Affairs Committees, work has continued to promote accountability in campaigns and governmental ethics. Additionally, efforts have been made to implement recommendations of the Tribal-State Work Group, on which I was also a member, in relation to the Maine Indian Claims Settlement. Serving on these panels presented many challenges; however, the experience did prove to be quite gratifying.

Over the past months I have been sending weekly newsletters to citizens via e-mail that contain details related to legislative initiatives, as well as supplemental public service announcements. If you would like a copy, please provide me with your e-mail address.

Again, I wish to thank you for the honor of representing your interests in Augusta. If you ever encounter difficulty in contacting a State agency or department, I may be reached by phone, 477-2607, or by e-mail, RepJoan.Nass@legislature.maine.gov.

Sincerely,

Joan M. Nass

Town Manager
Mark Green

Greetings:

The past year has been an eventful and productive one for the Town of Sanford. Your Town Council has worked hard to achieve their annual goals and to support and expand upon our past accomplishments. The realization of some objectives takes time, whether it is in expanding economic opportunity, improving infrastructure or streamlining Sanford's town government for both greater efficiency and savings. As you read this report I hope you will agree that much good has been accomplished in the Town of Sanford this year with much more planned for the year ahead.

At every opportunity the Town of Sanford researches ways to share the cost of government either through regionalization or by improving the efficiency of Town services. Recent successes include the regionalization of dispatch services with the County and the reorganization of the General Assistance Office. The Town's paving program provides a strong plan for the repair and improvement of our roadways over the coming years. Les Stevens, our Director of Economic Affairs, works tirelessly with the Chamber of Commerce, local entities and individuals to bring new businesses to Sanford and to encourage the expansion of existing ones. Economic Development is a slow process that takes much time, effort and dedication. Sometimes the results are much longer in coming than any of us would like but that is the nature of the beast. If you look around the State at communities such as Lewiston and Brewer, whose booming development of their former mill buildings is envied by many, then know that many years of hard work and lots of patience and perseverance have brought about those successes.

Good people working together are responsible for success and Sanford is fortunate to have fine employees throughout Town Hall. At the administrative level we offer our best wishes for a happy retirement to Police Chief Thomas Jones and welcome our new Chief Thomas Connolly. At the Town Council level we offer thanks for the leadership of Anne-Marie Mastraccio over the past 2 years and for the service of former councilors Arthur Kelly, Laura Nickerson, and Gary Lamb. We welcome a new councilor, Kevin Chabot, and welcome back former councilor Alan Walsh. Your Town Council puts in countless hours in committee meetings, community involvement, and interacting with citizens. They are a dedicated, diverse group sharing a common goal to do what is best for the prosperity and safety of Sanford. I am honored to serve as Chair of the Town Council and grateful to work with such a good set of Councilors, a great Town Manager, Mark Green, and a hard working and dedicated group of employees. It is a great team of which I am proud to be a part.

I encourage all citizens to get more involved in your town by staying aware of issues, attending meetings, volunteering on the many boards involved in town government, and contacting either the Town Manager's office or any Councilor with comments, suggestions, and concerns. We are YOUR town government and we will work best with input from YOU, the people we serve.

Sincerely yours,

Joseph R. Hanslip
Town Council Chair

Town Manager's Annual Report

As I write this report in early March of 2008 I am putting the final touches on a very difficult municipal budget, although I must say that I can't ever remember an easy one. Budgeting for the Town isn't much different than budgeting for a big household. There are always many more needs than there is money to satisfy them. We will for the third year in a row come in under the limits set by the Legislature in regard to the operating budget, but overall we will be significantly over this limit as a result of my request to invest more in the maintenance of our roads, sidewalks and equipment.

It is always easy to put off large expenditures hoping that it will be easier to pay for them next year, but it rarely ever is. We are also in a fairly good position now that we should take advantage of. Our equipment (trucks, heavy equipment, etc.) is in relatively good condition so if we keep up with it we can avoid borrowing for equipment in the future. Our roads and sidewalks unfortunately are not in good condition but we know what is required to start bringing them up to a higher standard as a result of the pavement management plan we completed last year. This plan recommended a number of cost efficient strategies to stop the decline ranging from crack sealing to total reconstruction. The capital improvement budget includes funding to begin implementing the recommendations of the plan. I am also recommending that we increase funding for paving by about \$100,000 annually in each of the next five years.

This past year has been a productive one in terms of getting many projects underway although I am sure the average citizen is wondering what has happened to some of these projects! The Wal-Mart and Lowe's retail center will be under construction by late spring providing significant additional tax revenues in 2009; The roundabout at the intersection of Routes 4 and 109 is scheduled to be bid in June with construction starting by mid summer; The expansion of SIS in the downtown will be underway this spring; Construction of a new office building for public works and the renovation of the Springvale Fire Station will also start this spring; and, Phase 1 of the road that will be constructed through the Mill Yard will be started in early summer.

Last year Chief of Police Tom Jones began a well deserved retirement after serving the Town as Chief for the past four years. Our new Chief, Tom Connolly began work in July after retiring from Prince George's County Maryland where he held a variety of command positions. Since starting he has made several changes in how we deploy our limited manpower to improve the service provided to citizens. He is also working with the schools so that students in all grades will get to know our officers on a more casual basis.

Every summer the Town Council establishes a work plan that I use to guide my work and the work of all Town staff. One of the items on that list was to find a site for a new police station and to begin the design of the new station. We have accomplished this and will be asking the Finance Committee and Town Meeting to approve the purchase of three acres of land now occupied by the former movie theater in Downtown Sanford. I am also hopeful that voters will authorize funding for the construction of the police station although construction would not begin until 2009 when we will finish paying off some of our existing debt.

In closing I would like to thank the Town Council, Finance Committee members, Town Staff and Citizens for continuing to work together to improve our community!

Annual Report Director, Economic Affairs

My fellow Sanford residents, as last year, this Annual Report provides an opportunity to personally thank so many that helped advance the cause of economic development in Sanford during FY 07/08. For as the John Donne wrote, *“no man is an island entire of himself, each is a bit of the continent, a part of the main, if a clod be washed away by the sea Europe is the less, as well as if a promontory were, as well as if a manor of thine own or of thine own friends were, every man’s death diminishes me for I am involved in mankind, and therefore never send to know for whom the bell tolls...it tolls for thee.”* In that spirit, all of the following contributed mightily to economic development in Sanford.

- Councilors Mastraccio, Hanslip, Lamb, Kelly, Herlihy, Paul, Littlefield, Walsh, and Chabot for their policy leadership and for their support of economic development.
- The Finance Committee, CIP Committee, and Town Meeting for providing the *“tools to do the job”*.
- The Development Committee of Town Manager Mark Green, Planner Jim Gulnac, Airport Manager Evan McDougal, Chamber President Rick Stanley, Grant Writer Lee Burnett, and State Department of Economic and Community Development staffer Brian Doyle for their team work, support, and dedication to our collective aspirations and clients.
- The Planning Board for their expeditious permitting of site plans and subdivisions.
- Our Legislative and Congressional delegations for listening to our requests for assistance and then aggressively advocating on Sanford’s behalf.
- The Community Development Block Grant Advisory Committee for their support and counsel particularly regarding the mills and downtown initiatives.

Highlights of the 07/08 Fiscal year include:

- The long awaited closing between the developer and **Wal-Mart** on the large South Sanford retail project...the project includes a Super Wal-Mart and **Lowe’s**, almost 400,000 square feet of much needed retail space, 650 jobs, and a \$20,000,000 investment...the project will break ground in the spring of 08 and will take about a year to complete.
- Announcement of a 20,000 sq. ft. and \$1.5 million expansion of **Rubb Inc.** ...the expansion will create 18 new manufacturing jobs and is currently under construction.
- Developer Lionel Sevigny’s stage I completion of the **Villa Café** redevelopment...this project converts one of the last blighted properties in the Village of Springvale into productive housing and retail space.
- **Sanford Institution for Savings** announcement of a signature \$5 million expansion of their banking headquarters in downtown Sanford...the project represents the most significant investment in our downtown in decades and will commence in the spring of 08.
- Identification of several experienced developers with the track records, skill sets, and financial capacity to undertake successful large scale mill rehabilitation projects...these developers have expressed interest in Sanford and discussions, partnering, and negotiations are ongoing.
- Opening of **Espo’s Tratoria** in downtown Sanford.
- Attraction of **New England Truck Tire** to Sanford...this company is in the process of renovating existing space near the Sanford Regional Airport for a Michelin tire re-treading facility...the project

- Completion of **Central Tire's** new tire re-treading plant in the Sanford Industrial Development Park...Rene Therrien's new 26,000 sq. ft. facility has already created 8 new manufacturing jobs.
- Securing a **\$500,000 CDBG Downtown Grant** as part of a \$2,000,000 new road project to improve accessibility to former Goodall Mill complex.
- The continuing interest of three different developers looking to do large scale drug store and other retail and office projects at various locations in downtown Sanford...these projects are still in various stages of negotiation and development.
- The completion of financial and design issues relative to the construction of a \$1.8 million new round-about at the **Route 4/109 intersection**...this project will mitigate traffic flow problems at the intersection and is designed to accommodate additional growth and development along the Route 109 corridor; construction is slated to start this summer.
- Announcement of new hotel in vicinity of Sanford Regional Airport....investment is in the \$7 million range and is going through state and local permit approval process.
- Council approved **Tax Increment Financing (TIF)** Credit Enhancement Agreements for Rubb, Inc., Sanford Institution for Savings, and Village Green Associates (Lionel Sevigny's Villa Café project).
- Securing a \$250,000 **CDBG Business Assistance Grant** for Rubb Inc.
- Soliciting a strong financial and real estate development partner (**OSO**) to add financial strength to the **Oxford Aviation** project at the Sanford Regional Airport...the two partners are in the final stages of negotiating a partnership agreement that would pave the way for construction of the \$8 million hangar project...the project will create over 200 manufacturing within 2 years.

Throughout the past year the Economic Affairs Office in collaboration with the Development Committee provided the following economic development services:

- Site Location Assistance
- Labor Market and Work Force Information
- Demographic and Statistical Information
- Financial Packaging
- Tax Incentive Packaging
- Intergovernmental Relations and Public Policy
- Client Visits and Assessments
- Client Casework, Referral, and Case Management
- Business Advocacy

Any business, developer, or entrepreneur desiring any combination of the above economic development services are encouraged to contact the Director of Economic Affairs at:

324-9155 (Office)

Sincerely,
 Les Stevens

Town of Sanford
Office of the Assessor
 919 Main Street
 Sanford, ME 04073

Property assessment administration is a complex and technical profession vital to the financial health of local government. The Sanford Assessor's Office is responsible for administering the ad valorem (according to value) tax system and its objective is to identify and appraise all property in Sanford and Springvale.

In Maine, the ad valorem tax is based on the principle that the amount of tax paid should depend on the fair market value of property owned on April 1st of the current tax year. The property taxes are a major source of revenue for financing local government services such as police, fire, schools, public works, parks and recreation, and town hall.

Assessed values used for tax purposes must be accurate so that the tax burden will be distributed fairly and equitably. The primary tasks performed by the Assessor's Office as we work toward completion of an assessment roll are:

1. Locate and identify all taxable property in Sanford and Springvale
2. Make an inventory of the quantity, quality and important characteristics of all taxable property
3. Estimate the value of each taxable property
4. Determine the extent of taxability of each property
5. Calculate the assessed value of each property
6. Prepare and certify the assessment roll of the entire jurisdiction
7. Calculation of tax rate and send tax bills

Our Town Meeting Members determine the amount to be spent to run our community. The assessed value is the base for calculating one's tax responsibility.

There are programs offered by the State Bureau of Taxation. For businesses with personal property, inquire about the "BETR Program". For the individual, inquire about the "Tax and Rent Reimbursement Program", filed annually with the State. Veterans, age 62 or 100% disabled are eligible for an exemption. File with Assessor before April 1st after your 62nd birthday. Maine residents are eligible for a "Homestead Exemption" on their residence. A one time acceptable filing is required prior to April 1st of the tax year to be eligible for that tax year.

2006 MUNICIPAL TAX ASSESSMENT WARRANT
 State of Maine Municipality: Sanford County: York
 To: Claire E. Morrison Tax Collector Sanford, Maine

In the name of the State of Maine, you are hereby required to collect of each person named in the list herewith committed to you the amount set down on said list as payable by the person.

PLANNING & COMMUNITY DEVELOPMENT DEPARTMENT

Jim Gulnac - Director

Barbara Bucklin - Administrative
Assistant

(207) 324-9150

Overview

The fiscal year 2006/2007 saw a mild reduction in the total number of subdivision applications but a slight increase in site plan applications. This is reflective of the change that is taking place in Sanford, as more and more non-residential development is proposed.

The department staff consists of two persons: a Director of Planning & Community Development and an Administrative Assistant. The department serves as staff support to the Planning Board, Site Plan Review Committee and the Community Development Advisory Committee.

The Planning Board is established by the Town Charter as provided for in state law. It consists of seven residents appointed by the Town Council.

The Planning Board is responsible for the development of the Town's Comprehensive Plan and recommending to Council the various ordinances needed to implement the goals and objectives of the Plan. The Planning Board also reviews all the private and public major land development applications and all subdivision applications.

The Site Plan Review Committee (SPRC) has been established by ordinance and is made up of the Planner, who serves as chairman, the Town Engineer, and a representative from the Fire Department, Police Department, and the Town Council. It meets on an as needed basis and reviews and approves all applications classified as minor. Projects classified as Major are reviewed and referred with recommendations to the Planning Board.

The Community Development Advisory Committee is a citizens' group appointed by the Town Council to assist the Community Development Director in the preparation of the Community Development Block Grant (CDBG) program applications.

Financial assistance in the form of grants is made available to the Town from the State of Maine Department of Community and Economic Development. They receive the funds from the Federal Health and Urban Affairs Department (HUD). The Director of Community Development (James Gulnac), the Director of Economic Affairs (Les Stevens), and the Grant Writer (Lee Burnett) provide staff support to the CDAC.

Department's activities

Planning:

The Town's Comprehensive Plan has been certified by the State of Maine's Department of Planning and the implementation of the goals and objectives of the plan are the primary focus of both the Planning Board and Town Council.

The Planning Board and staff, in a cooperative effort with the sewer district, have completed a capacity analysis of the sewer district based upon the maximum level of discharge permitted under the current DEP permit. It was determined by the study that more land was zoned for sewer service than could be developed using public sewer. In addition, it was determined that due to physical constraints some areas could not be serviced by sewer in an economical manner. The Board therefore made recommendations and the Town Council adopted amendments to the zoning ordinance to reduce the area that would require the use of public sewer.

The staff has also worked closely with the Maine Department of Transportation to develop a "Highway Access Management Plan". This plan sets forth the design guidelines that are to be followed when developing property along the major state roads through Town. It is important to have a plan in place which balances the need to have safe, efficient, and rapidly moving major arterials while at the same time preserving the village and the small urban center look and feel of our downtowns.

Sanford is a community unique in that it is blessed with a village area (Springvale), an urban center (Sanford), an actively developing airport and industrial/retail area as well as some of the most wonderfully diverse habitat areas and rural environments found anywhere in Southern Maine.

Private Development Application Review:

This area involves the review of minor and major site plans and minor and major subdivisions and other forms of land development applications.

The application review process can be as simple as an administrative review conducted by staff for minor changes to existing site plans; or it can involve the review and approval by the Site Plan Review Committee on those projects classified as minor; and review by staff, SPRC, and Planning Board for all subdivisions and projects classified as major. The chart below summarizes the activity in recent years.

	02-03	03-04	04-05	05-06	06-07
Site Plans approved	22	12	9	8	16
Subdivisions approved	8	10	16	19	16

Brownfield Assessment Program:

The Town's Brownfields Assistance program, funded by a \$200,000.00 grant from the Federal Government through the Environmental Protection Agency (EPA), is also administered by the Planning Department as part of the Town's overall Community Development program. The grant program consists of the assessment of properties which, due to prior use, are no longer viable for development due to environmental conditions that can often be considered hazardous. The goal of this program is the ultimate redevelopment of the 'mill' area along the Mousam River in Sanford. Various properties have been assessed and their Phase I, and in some cases Phase II, reports have been prepared and submitted to the State of Maine Department of Environmental Protection and the Federal Environmental Protection Administration for their acceptance. It is anticipated that the Town will apply for another assessment grant as well as consider some clean grants as specific proposals become better identified.

Respectfully submitted,

James Q. Gulnac, AICP
Director of Planning & Community Development

Barbara Bucklin
Administrative Assistant

Town of Sanford

Information Systems

Bill Botting - Director
Dan Martineau - Computer Programmer
Larry Emery - Computer Systems Operator

This year the telephone system purchased in August 2005 for the Sanford Police Department was upgraded to encompass the rest of the Town Hall facility (not including the School Department). The system gives the Town Hall staff better capacity to handle calls efficiently and in a professional manner. Features include phones with multiple extension appearances, Caller-ID support, automated attendant, voice mail, and group call handling features customized for each department. A benefit of this system is that multiple Centrex lines were replaced with a single PRI T1 line to reduce the annual communication cost by almost \$3000 while also providing Direct Inward Dialing capability and lower long-distance rates.

The Town's GIS consultant, Tom Burns of GIS Mapping & Analysis was contracted to update the Town's property parcel maps to more accurately match the high resolution aerial photography obtained in 2005. Working with Corner Post Land Surveying Inc. and various Town Departments to research historical property-related documents, Mr. Burns was able to update the parcel maps with approximately 60% of the lines at or near survey quality accuracy. This makes the Sanford parcel composite the most accurate in the entire State of Maine!

A new equipment rack was installed in the Town Hall Server Room to accommodate new equipment and relocate other equipment into a more suitable environment. A new server was installed to replace the Police Department's 5 year old server that hosts their primary Dispatch and Records software, IMC. A Network Attached Storage (NAS) server was installed for use by the Information Systems Department to store computer drive images, provide disk-to-disk backup space, and ample disk space for any other emergency situations.

Respectfully submitted,
Bill Botting
Director of Information Systems

~CODES ENFORCEMENT~

Town of Sanford

Shirley Sheesley– Chief Codes Enforcement Officer

Jamie Cole -

This Department enforces the Zoning Ordinance, the Shoreland Zoning Ordinance, Building and other codes adopted by the Town and State statutes. We perform property inspections, provide information on codes and ordinances and issue permits. Revenues from permits, fees, and fines totaled \$167,088.

BUILDING PERMITS

Residential	416	(73 new)
Commercial	85	(10 new)
Sprinkler System	38	
Plumbing	377	(239 internal)
		(138 external)
TOTAL	<u>916</u>	

CERTIFICATES OF OCCUPANCY

Business	87
Residential	86
Home Business	18
TOTAL	<u>191</u>

New construction consisted mostly of residential buildings, accessory structures and additions. Several new businesses have moved into existing buildings, while other buildings have been renovated.

Subdivisions being developed or completed included Bernice Avenue; Boulder Ridge; Brook Hill; Calvin's Way; Fox Ridge Run; Gordon Acres; Harvest Estates; Hillside Crossing; Meadow View; Old Colony Village; Payeur Farms; Quartz Hill; Ridgewood Meadows; Ridley Ridge; Rock Pond Estates; Rockwood Estates; Stony Creek; and Windy Pines.

In addition to inspecting new construction and renovations, the Codes Enforcement Office performs inspections for license renewal and responds to complaints associated with buildings and land use. Compliance with codes, ordinances, and State Statutes is sought.

The Zoning Board of Appeals may hear appeals of decisions made by the Codes Enforcement Officer based on the Zoning Ordinance. During 2006-2007, the ZBA heard fourteen appeals, as follow:

8 Dimensional Variances	5 approved
5 Administrative Appeals	4 approved
1 Disability Variances	1 approved

The department staff consists of a full-time Administrative Assistant, a part-time Field Inspector, a recently hired full-time Codes Enforcement Officer and a full-time Chief Codes Enforcement Officer.

Respectfully submitted,
Shirley Sheesley
Chief Codes Enforcement Officer

Grant acquisitions July 2006 to June 2007

**Lee Burnett
Grant Writer
608-4171**

In the inaugural year of employing a part-time grant writer, the Town of Sanford secured \$580,361 in grants for downtown revitalization, pedestrian and cyclist safety, tree plantings, land conservation and trail improvements.

The biggest success was landing a \$500,000 downtown revitalization grant from Maine's Department of Economic and Community Development. This money is being matched with local money and donations of land to build a \$2.3 million access road and river walk through the Mill Yard.

For six weeks in the summer, the town benefited from the spirited labor of a seven-member AmeriCorps team from Perry Point, Md. The team hauled junk out of the Mousam River, built new trails for Three Rivers Land Trust, participated in graffiti paint-out day, eradicated invasive species and installed erosion control measures on Goodall Brook.

For five weeks in the spring, the junior high held the "Lean Green Challenge," a contest to promote walking and cycling to school. The contest was developed in conjunction with infrastructure improvements to make Main Street safer for pedestrians and cyclists. Maine Department of Transportation awarded the town \$48,106 through its Safe Routes to School program for bike-lane striping, solar-powered crosswalk signals, and new storm drain covers.

The Maine Arts Commission awarded the town a \$2,000 Sustaining Traditional Arts training grant to teach vocational students traditional timber-framing techniques that will be used to construct several trail-side structures. The Maine Forest Service awarded the town a \$1,575 Project Canopy grant to purchase replacement nursery stock at Sanford Regional Vocational School and to plant new trees in Gowen Park.

Altogether, the town landed five of six grants applied for, missing out only on a \$37,500 Recreational Trails grant from Maine's Department of Conservation.

Town of Sanford
Sanford Regional Airport
 Main Office—919 Main St
 Sanford, ME 04073
 (207) 432-0596
 ermcdougal@sanfordmaine.org

The fiscal year 2006-2007 has been a time of continued growth at the Sanford Regional Airport. FAA and Maine DOT grants partnered with Town of Sanford resources completed a Master Plan Update for the west side of the Airport, applied a protective slurry seal on the recently expanded east ramp, installed security fencing along the north side of the field, and completed an environmental assessment for the impending construction of a partial parallel taxiway and reconstruction of runway 7-25. The taxpayers also approved a \$120K Town financed infrastructure project on the east side of the airport that extended fire protection, power, and taxi lane pavement to allow up to 12 new individual private hangars to be built. Currently four hangar owners have paid an \$11,575 infrastructure fee for the own funded improvements and the rights to build on these new lots. The old Navy Hangar has been demolished and the site made ready for aviation development. The historic, privately owned, former Navy Control Tower and Administration building was evaluated by the owner and demolished after engineering revealed extensive foundation and framing problems. An FAA approved negotiated land swap between the Town of Sanford and Flemish Master Weavers made additional land along an old taxiway available for aviation development and provides Flemish Master Weavers with access to expansion opportunities.

There are applications for 7 new private hangars with two in the process of being built as this is written. Each hangar, valued between \$150K and \$200K, produces about \$1800 per year of land lease and tax revenue as well as fuel flowage fees and excise tax from the based aircraft back to the Town.

The Town issued a request for proposals for a new operator to lease and operate the East Fixed Base Operation providing fuel, maintenance, flight instruction, and other services to the flying public. Southern Maine Aviation was selected from the two proposals and a negotiated 20 year lease agreement was approved by the Town Council. Southern Maine Aviation occupied the facility in November of 2007 and is spending a minimum of \$300K to upgrade the Town owned facility to make it a modern terminal and aviation service center. The Town negotiated a separate fair market lease with the popular airport restaurant. The direct revenue stream from businesses, land leases, and taxes generated at the field are approximately \$130K annually. The operating budget is just over \$200 K annually. The Airport Manager's position was changed from part time to full time in July of 2007 to keep up with the ever changing aviation development.

As Airport Manager I continue to be involved as Vice President of the Maine Airport Manager's Association in efforts to ensure that the FAA and State recognize the economic benefits of the 36 public use airports in Maine and the pilots who use them. Airports like Sanford are a significant part of the economic engine that drive the region.

I am honored to help the Town of Sanford grow the Sanford Regional Airport towards its full potential as the 4th largest public use Airport in Maine.

TREASURER'S OFFICE
Paula Simpson - Town Treasurer
Ann Tuttle - Administrative Assistant

It's hard to believe another year has passed by so quickly! The Treasurer's Office is currently staffed by Town Treasurer, Paula Simpson, and Administrative Assistant, Ann Tuttle.

On August 15, 2006, the Town Clerk/Tax Collector committed to the Treasurer 373 liens in the amount of \$573,771 for collection. The liens were a result of nonpayment of 2005/2006 real estate taxes. On February 15, 2007, the 2004/2005 real estate liens matured and the Town acquired an abandoned mobile home located in a mobile home park. Due to its poor condition, Town Council voted to allow the park owner to demolish the unit.

The State of Maine currently has a property tax relief program known as the "circuit breaker" program that has been in effect for over 20 years. The maximum benefit for 2006/2007 was \$2,000. The income limits were \$80,750 for single and \$105,750 with spouse or dependents. The State mails applications to Town Hall usually in August and the deadline to apply is May 31. If a person qualifies for a refund, a check is mailed directly to the applicant or funds are deposited into a bank account. For help or questions with the application process, please contact Town Hall.

For those unaware of the lien process, the State of Maine has a tough law when it comes to paying real estate taxes. Within a year from when the taxes are due, the Tax Collector sends a 30-Day Lien Notice to property owners and mortgage holders indicating that, if the taxes are not paid in full, a lien will be placed on the property. After the deadline, liens are recorded at the Registry of Deeds. The Tax Collector then commits them to the Treasurer for continued collection efforts over an 18 month period. From 30-45 days before the maturity date, the Treasurer sends, by certified mail, "Notices of Impending Foreclosure" to those property owners and mortgage holders on record. If payment in full is not received by the deadline, the lien matures and an automatic foreclosure occurs. Title of the property then goes to the municipality.

After foreclosure, the Treasurer turns the properties over to the Town Council for disposition. There is no obligation on their part to return the property to the former owner. Although foreclosures of owner occupied homes have been rare, it is nice to know that, historically, our Council has always believed in returning homes to former owners. An agreement is usually made to have the owner repay the Town in either a lump sum or over a period of time and a Quitclaim Deed is subsequently issued to return the property back to the former owner.

At a Special Town Meeting held on October 3, 2006, Town Meeting voted to authorize the issuance of general obligation bonds up to \$670,000 for improvements to the Sanford Regional Airport. This project included the demolition of the former Modern Continental hangar and construction/reconstruction of taxiways. On May 22, 2007, the Town held its annual Town Meeting and two bonding projects were authorized. Up to \$1.2M was authorized for costs of designing and constructing a roundabout at the intersection of Route 109 and Route 4. The entire cost of the project will be shared with MDOT and impact fees collected from future developers. Also, \$1.5M was authorized for renovations/construction of a new road through the Mill Yard to include trail construction and other area improvements. To defray some of the costs, the Town applied for and was awarded a State of Maine Downtown Grant in the amount of \$500,000. Debt payments for this bond will come from TIF revenues generated from the Downtown/Route 109 project.

This fiscal year, Town Council voted to designate two (2) Tax Increment Financing (TIF) Districts. Both TIF's have 15 years terms and include a Credit Enhancement Agreement that will reimburse the companies percentages of new tax revenue as follows. Central Tire: 75% (Year 1-5), 50% (Year 6-10) and 25% (Year 11-15). Rubb: 75% (Year 1-7) and 50% (Year 8-15).

In closing, the status of the Town's debt service and the outstanding 2005/2006 real estate tax liens are included with this report.

Respectfully submitted,
 Paula E. Simpson
 Town Treasurer

FACILITIES DIVISION

Alex Hammerle - Director of Facilities Al Phillips - Maintenance Don Gagne - Maintenance

The facilities division of the department is responsible for cleaning, repairing and replacing items in some buildings and for designing and managing capital improvement projects at other facilities through the use of contractors. This was another active year replacing, restoring, and upgrading building systems. Some of the projects that were accomplished include:

- New lighting was installed in the Town Clerks office for improved performance and energy efficiency
- A new telephone system was installed in the Town Hall and improvements made to the system in the Police Department
- Infrastructure was installed to support the Reverse 911 system
- Modifications and improvements were made to the voting locations throughout the town to ensure accessibility including the reconstruction of the ramp at one location.
- Specifications were developed for recoating the roof at the Highway garage.
- Planning is now underway for modifications to the front of the Town Hall and Annex to allow for better visibility

The custodial staff continually strives to keep the Town Hall and Annex facilities clean, safe and a facility the town can be proud of.

Public Works Department

Charlie Andreson - Public Works Director / Town Engineer

Donna Gray - Assistant to the Public Works Director

Michael Casserly - Engineer

Eugene Alley - Deputy Director of Public Works

Peter Smith - Highway Director

Elizabeth O'Connor - Administrative Assistant

Nancy LeBrun - Administrative Assistant

The Public Works Department has consisted of the Bureaus of Highways, Sanitation, Parks and Recreation, Buildings, and Airport. The administrative offices are on the second floor of the Town Hall. During this year the Department was reorganized. The Department of Parks and Public Properties was created, removing responsibility for parks, recreation, airport and public properties from the jurisdiction of the Public Works Department.

The primary responsibilities of the PWD are the winter and summer maintenance of the streets and highways, storm water management system, collection and disposal of residential solid waste, including rubbish and recyclables, operation of the solid waste transfer station for the collection and disposal of all other solid wastes, including construction and demolition debris, brush, lawn and yard waste, bulky wastes, tires, metals, appliances, electronic wastes and "universal" waste including fluorescent bulbs, cathode ray tubes (televisions and monitors),

Additional responsibilities of the Department are to oversee town owned maps and plans of streets, storm drains, sidewalks and other public infrastructure. The Department coordinates Federal Emergency Management Agency funded projects and also deals with State and Federal Capital Improvement Projects within the department. Job Bond Monies, Capital Improvement and Community Development Block Grant monies are also part of the responsibility of the Department. Some of the tasks associated with these responsibilities include: street sweeping, leaf pick-up, plowing, salting/sanding, equipment maintenance, construction of roads and overseeing of curbside rubbish and recycling as well as the transfer station and street painting,. The Department consists of approximately thirty-five full time employees throughout the year.

2007 Snow Plow Rodeo

HIGHWAYS AND SANITATION DIVISION

During this period the Public Works Department was re-organized, allowing for the Parks Division, Recreation Division and Facilities Division to form a new department. This restructuring allowed Eugene Alley to become the Deputy Director of the Public Works Department and Peter Smith to become the Director of Bureau of Highways.

There are occasions where people and/or organizations step forward and make donations to our department by way of time or materials. The Department organizes an annual Clean Up Day at which time both employees and volunteers work to clean trash, litter and debris from the Town's roads. This project has been a great help in improving the appearance of the community, and to raise awareness and sentiment to prevent littering. At this time the Public Works Department wishes to extend its thanks appreciation to all the people and businesses for their continued support.

Listed below are some of the major work/projects completed within the Public Works Department for the period of July 1, 2006 – June 30, 2007:

The Mothers Day storm of 2006 caused extensive damage to several locations including Sam Allen Road, Walnut Brook Road, School Street and Harry Howes Road. When the flooding occurred again during the Patriots Day storm in April of 2007, several locations that were damaged during 2006 that had been temporarily repaired were damaged again. Some areas that were damaged during the Patriots Day storm were: Sacopee Road, Grammar Road, Bateman Street, Twombly Road, Sam Allen Road, Blanchard Road, Yeaton Hill Road, Morrison Road and Walnut Brook Road to name a few. The department applied for grant money for this disaster through the Federal Emergency Management Agency. FEMA funds from the 2006 storm amounted to approximately \$120,000, and FEMA funds from the 2007 storm event exceeded \$900,000. Hewey Street, Booth Street, Adams Street and Breary Avenue were all overlaid. This was done in conjunction with the Sanford Water District who installed a new water main in this area. Reconstruction that had started on Emery Street in 2006 was completed during this period in 2007. North Street was totally reconstructed with new drainage and sidewalks, in cooperation with the Sanford Sewerage District. The cooperation of these two agencies is ongoing, and greatly appreciated. The base coat of pavement was to be placed in the fall of 2007 and the final coat will be done during 2008. Westview Drive, Eastview Drive, Mountainview and Farview Drive all had shim and overlay.

The Town of Sanford continues with its recycling program working towards the state-recycling goal of 50%. The town now recycles: clear plastic bottles, plastic opaque milk and juice bottles, newspapers, junk mail, corrugated cardboard, clear glass, brown glass, green glass, colored detergent bottles and aluminum and tin cans. Through a grant from the State Planning Office the department was able to sell \$80.00 compost bins to residents for \$39.50 for the third year in a row.

Approximately 5,000 yards of broken cement, hot top and various debris that had been stored was processed, recycled, and used to rebuild new roads throughout Sanford/Springvale. During this period, the Department continued a recycling program for leaves that are picked up throughout town. Over 1,000 tons of leaves removed from residents were brought to LaVigne's Farm for composting.

The Highways and Sanitation Departments continue to do their seasonal projects such as snow removal, brush clearing, street sweeping and leaf pick up in the fall. The town has a continuous sidewalk maintenance and improvement program. During this period sidewalks were replaced on North Street, Berwick Road and various other areas throughout town. During the next year it is hoped that an updated program will be developed, examining the policies for new sidewalks, and recommending improvements and maintenance activities for the coming years. The mechanics refurbished the reed screen. The cost to refurbish this piece of equipment with labor and supplies was \$18,522.56. The cost for a new piece of equipment would have been approximately 60,000.00. This was a savings of approximately \$40,000.00 + to the Town.

Safety and other training is a priority with the department. Some of the training done on a yearly basis to either all or some employees within the department was: Hepatitis B Training, Blood borne Pathogen, Video Display Training, CPR, CDL training, Fire Extinguisher Training, Lockout/Tag out, Forklift Safety, Hazard Communication, Emergency Preparedness, Back Injury Prevention, propane safety. Some employees attended training sessions on underground piping. Mechanics attended updated training sessions on new ideas.

All employees are also trained on the proper usage of eye wash stations, which are installed at various locations throughout the department.

The Department wishes to extend its appreciation to the citizens of Sanford for your continuing cooperation and support

Respectfully Submitted,

Charles J. Andreson

Sanford Parks and Recreation Department

Marcel Blouin - Director

Lori Hegarty - Recreation Coordinator

Pat Jackson - Administrative Assistant

Brian Desrochers - Park Maintenance Supervisor

Dan Cote - Park Maintenance

Kendall Mills - Park Maintenance

Sanford Parks and Recreation became a Department in and of itself this past year. Breaking away from the Public Works Department, although still remaining closely tied to, this Department has responsibility for Parks, Recreation, Town Hall and other facilities in the public trust as well as the Airport. Business remain will continue the same and we will offer old and new programming for the community.

The Sanford Mainers of the New England Collegiate Baseball League continued to bring high quality baseball to Goodall Park. College baseball players from across the United States come to Sanford to make-up the Sanford Mainers Baseball Team. This proves to be very entertaining as well as an opportunity to see possible future major league players. Two very popular pitchers who have played in Sanford have done just that. Andy Sonanstine with Tampa Bay and Kevin Slowey with Minnesota have both pitched in Sanford for the Mainers. There are other players who are in farm leagues as well throughout the major leagues, which prove that these teams are good.

The Park Department personnel maintain Goodall Park field and stadium for seasonal use by organizations such as: The Sanford Mainers, Babe Ruth, Twilight League, Legion Baseball and The Sanford School Department. There are many who come to Sanford and proclaim that these facilities are the best they play at and it is a credit to the Park Division that takes a great deal of pride in this facility.

Park Department employees continue to work very hard to keep the town's parks and playgrounds looking great. They are also responsible for maintaining many fields for various sport activities throughout town including SSYAA (Veterans Field) and Shaw's Field for the Sanford Soccer Association. The Park Division was also very busy with 4th of July preparations that continue to grow throughout the area with various activities such as parade, flea market and fireworks. Preparations are underway for a performance of the Portland Symphony Orchestra in July of 2007. The 4th of July Committee will continue to seek ways to celebrate this summertime tradition.

Many thanks to the Southern Maine Garden Club who without their volunteer efforts the community would have less color in the summer. These ladies work tirelessly to plant flowers in high visibility areas along Main Street and in the business districts of the downtowns of Sanford and Springvale.

Recreation Staff

Park Maintenance Staff

There were many things that happened during 2006. While all camps and activities during the year are well received and attended new things are always being planned. New this year we developed a Bi-Annual Photo Contest in conjunction with Kelley Custom Picture Framing. The contest was open to all students ages 12 and under and 13 and over. All of the students photos were displayed in Mark Kelley's Custom Frame Shop located on 906 Main Street. The overall winner received their photo professionally mounted and framed as the first prize. Preparations are underway for the Rotary Club of Sanford/Springvale to make a donation to provide the summer campers an opportunity to enjoy "Healthy Snacks". Children who might bring in chips, chips and more chips will have a choice of fruits, vegetables, cheeses, yogurts, crackers along with raisins and granola. This certainly will make for a more pleasant and healthy snack time at camp for staff and campers and hopefully will begin to make a difference in childhood obesity here in Sanford and Springvale. Sanford Parks and Recreation received a grant from "Sticks for Kids". With this grant, made possible through the National Recreation and Park Association in conjunction with the Golf Course Superintendents of America, we received 10 sets of golf clubs in youth sizes. As we had a youth golf program already incorporated into our Fall Program using yard sale hand-me-downs, it was a nice addition to the program for the children who did not have their own clubs. The clubs were perfect for their size and the children appreciated the newness of the lighter club. Every opportunity to write grants, no matter the size, will be done in order to supplement the generosity of the citizens of Sanford and Springvale.

Town meeting saw the approval of the last phase of financial assistance needed to comply with the grant from the Department of Transportation for the Mousam Way Pedestrian/Bicycle Pathway. This will assure that we break ground and complete this very important trail and sidewalk enhancement in the area of Marginal Way the High School and River and Pleasant Streets. For more information about this please contact the Parks and Recreation Department.

As always the Department wants residents to know that we are always looking for ways to improve the quality of life in Sanford and Springvale and in that effort encourage residents to offer

Sanford Recreation...Just for the fun of it!

FIRE PREVENTION/EDUCATION OFFICER

The Fire Prevention and Education Officer's duties require persistent efforts to educate the Sanford population on fire prevention through Home Fire Safety demonstrations using the Prevention Mobile Trailer. The very young and the elderly are most at risk from fire resulting in injury or death; therefore, this office's efforts are primarily focused on this population.

The Fire Prevention and Education Officer conducts fire drills in both private and public institutions at all hours of the day so that employees are familiar with what is expected of them. The simple act of using a fire extinguisher can be threatening to someone who may never have held one.

In addition, this officer continues to involve the Towns of York County in the "York County Juvenile Fire Safety Intervention Collaborative." This program brings early intervention to children involved in fire setting. "Fire Schools" continue to be held throughout the year in an effort to help these young boys and girls from Sanford and surrounding communities.

FIRE DEPARTMENT TRAINING OFFICER

Captain Ronald Grondin

THE TRAINING OFFICER IS RESPONSIBLE FOR:

1. Training of all department personnel, both career and volunteer.
2. Maintenance of all department vehicles.
3. Maintenance of all department buildings.
4. Maintenance of fire alarm system.

Captain Ronald Grondin fills the role of Training Officer in presenting and coordinating programs for the career and volunteer members of the department. In addition, he is responsible for the maintenance of the fire department vehicles, buildings and the fire alarm system.

Sanford Public Works Department continues to do an excellent job of maintaining the fire department's fleet of vehicles saving the Town thousands of dollars each year.

The Springvale Fire Station renovation project is moving ahead. Town Meeting appropriated \$350,000.00 to tear down and replace the Annex. In addition, there is \$ 50,000 available to replace the sixty year old heating system.

The Fire Department is making use of the Roosevelt School facility for its training needs. The Fire Department has obtained several grants in an effort to improve this facilities' training capabilities for our members and other Town of Sanford employees.

Electronic equipment has been installed to improve the educational opportunities for our members. The fire department is presently using these computers for on-line training classes through the Federal Emergency Management Agency, and the National Fire Academy, for such subjects as the Incident Command System and the National Incident Management System.

FIRE MARSHAL

Peter Cutrer

This office is represented by Fire Marshal Peter Cutrer who works closely with the Code Enforcement office as well as other State regulatory agencies.

Regular inspections for occupancy permits, new construction and plans review have made the office visible and very involved in regulatory responsibilities. Constant contact with State Regulatory Officials is required to maintain oversight of construction requirements through the inspection process.

AMBULANCE SERVICES

The Sanford Fire Department operates two ambulances within its borders that handle all emergency medical calls. Sanford performs mutual aid for surrounding Towns as well as receiving mutual aid from these same Towns.

Full-time ambulance clerk/typist Judith Mauzerolle is responsible for the collections associated with providing emergency medical services. This position is responsible for the collection of hundreds of thousands of dollars as a result of the services provided by the Ambulance Department. Mrs. Susan Nye, the Assistant to the Fire Chief, in addition to her own duties, is also responsible for the supervision of the full-time clerk/typist and the ambulance billing division.

The collection rate for this office continues to reach the 90% level. It is a continuous learning process to keep current with changes in the insurance industry today. In the next year we will be completing our goal of billing all of our insurances electronically.

SUPPRESSION SERVICES

The new Ladder Truck and Airport Pumper were placed in service in September 2006. As a result of these purchases the Town of Sanford Fire Department now has replaced the entire front line of three pumpers and one ladder with newer equipment purchases over a period of nine years at a total cost of approximately \$1,400,000.00.

Although the fire department continues to work on improvements to equipment and apparatus, a schedule for vehicle replacement has been prepared. Pick-up trucks, cars and ambulances are purchased at a more frequent intervals.

Respectfully submitted,
Chief Raymond M. Parent

Fatal Reality 2007 Sanford High School

On May 10, 2007, The Sanford Police and Fire Departments along with Liberty Mutual Insurance Company and Carll-Heald & Black Funeral Home participated in a "Fatal Reality" mock accident to benefit the Junior and Senior classes of the Sanford High School. This mock drill consisted of several patients, played by students and vehicles simulating a graduation time accident when things are supposed to be happier times. The two classes were assembled outside where the Police Department arrived to assess the accident situation and then called in the Fire Department to extricate the patients and transport them to the hospital. Unfortunately the drill simulated a realistic side of driving, serious injuries and a fatality. The Carll-Heald & Black Funeral Home contributed to the realistic nature of the event. Liberty Mutual along with School Department Staff helped to organize the event. There was also an evening presentation for parents and teens prior to the drill.

Thomas P. Connolly, Jr.
Chief of Police
(207) 324-9170 Ext. 104

Sanford Police Department

Town of Sanford, Maine
917 Main Street, Suite 100
Sanford, Maine 04073
(207) 324-3644 Fax (207) 324-9199

Since July of 2007 I have had the honor and the privilege to lead the Sanford Police Department. I would hope that you, the citizens of Sanford, are as proud as I am of the sworn and civilian staff that comprise this department. They work very hard every day to provide police service to the community.

As with any change in administration, I have spent most of the first six months getting to know the men and women and allowing them to get to know me. However, we also did some hard work. In 2007, your police officers responded to over 26,000 calls for service, made 963 arrests and issued 609 arrest summonses. During this period, the Sanford Police Department also accomplished the following tasks:

- Purchasing and installing new Mobile Video Recorders (in-car cameras) in seven of our marked police vehicles. These cameras were obtained with the assistance of a state grant
- Reviewing and rewriting the Sanford Police Department's Policy and Procedure Manual
- Allowing a committee of police officers to evaluate and select a new duty uniform for our patrol officers. The selected uniform is professional looking, more practical, more durable, and is less expensive than the current uniform
- Developing a performance appraisal system so that our employees' performance may be objectively evaluated
- Working with the Town to design, hopefully win approval for, and build a sorely-needed new police station in the center of Sanford that will serve the needs of its citizens
- Identifying and implementing new, non-traditional roles for my police officers such as the yet-to-be-named program where patrol officers "adopted" an elementary school and agreed to interact with the children as a friend, role model, and hopefully, a mentor. This is the first step in the eventual transformation of the Sanford Police Department into a true community oriented agency

I look forward to serving the Town of Sanford for many years. It is truly an honor to be your Chief of Police.

Thomas P. Connolly, Jr.
Chief of Police

Report of the Superintendent of Schools

Sanford students continued to improve in 2006-2007, as measured by state and national testing results. Student achievement was up and reports of disciplinary incidents were down. This improvement is the result of dedicated school staff focusing their energy on the youth of our community

Sanford's student enrollment has begun to reflect state trends and is declining slightly. However, it can be difficult to measure the effect of economic growth and development on future student enrollment figures and this decline may not continue. The current tuition contract agreement between the Town of Sanford and the Town of Acton is a significant factor in maintaining stable high school enrollment figures.

The most exciting financial news of 2007 was the announcement that Sanford was the recipient of two large grants. The first grant is a Federal Safe Schools Healthy Students grant for approximately three quarters of a million dollars designed to provide direct services to students at risk of dropping out of school. The second grant, a Juvenile Justice Grant of approximately a third of a million dollars, is designed to assist staff in dealing with students who have emotional and behavioral issues which result in disruptions to the classroom and teaching process.

The air quality exchange project at the junior high school was a challenge but ultimately successful. Phase one of the project was supported by the State with approximately \$666,000 of state revolving renovation monies. The project focused primarily on ceiling duct work and roof equipment. Phase Two, an air exchange system for the remainder of the building is due to start in the spring of 2008.

In 2007, we said goodbye to School Committee member Paul Williams. Paul relocated to the Bar Harbor area and Mark Caron was appointed to replace Paul on the School Committee until the November 2007 election. It was at the end of 2007 that School Committee Chair Robert Stackpole announced his plan to retire. Bob served on the School Committee for 15 years, chairing it for 13 of those years. I believe I speak for hundreds of students, staff members and citizens of Sanford when I say thank you to Mr. Stackpole for his years of leadership, service and dedication to the Sanford School Department.

The Sanford School System continues to focus on academic growth. Our Director of Curriculum, Jan Goldsberry, has successfully led staff and administration in an effort to improve student learning. I would like to compliment the staff who have altered their teaching styles and refocused their traditional teaching methods to allow for the independent learning needs of our students.

I would like to take this opportunity to make a plea to parents to help our school system improve student attendance. One of Sanford's academic challenges to the

learning process is youngsters who have excessive absences from school. We have too many elementary students missing 30, 40 and even 50 days of school and high school students who only come to school once a week. We often do not receive parental support when an attempt is made to determine why students are not in school. The school system has a history of working cooperatively with parents, addressing the educational and emotional challenges of all our young people. However, when students do not attend school, they often fail. In addition, their test scores reflect negatively on the students who regularly attend. The school system is seeking help from the court system in an attempt to address this challenge but we need everyone's help to begin to reduce student absenteeism.

The Sanford School Department is doing more to attempt to prevent students from dropping out of school. We are excited about our success to date and continue to develop strong strategies to keep our students in school. Our previously mentioned grant and our individual school efforts are assisting in this plan to keep our kids in school.

As I write this report, I can not help but be influenced by the anticipated financial challenge soon to affect the State of Maine - specifically public education. I fear that our national and state economy will result in significant financial reductions necessitating the removal of programs that we currently provide for our students. Certainly the state-wide consolidation law attempting to reduce the number of school departments has created a major dilemma for communities. Sanford, although relatively unaffected by the consolidation law, must still reduce its budget in order to meet the expectation of the legislature. With anticipated losses of state revenue plus a serious increase in energy costs, I am fearful that public education will lose its momentum in providing needed educational programming for Sanford students. The sluggish economy is about to make a huge impact on the educational budget.

The long overdue school construction process controlled by the State of Maine continues to be delayed due to the state's economic crisis. Sanford is not expected to be able to apply for school construction funding until 2009 at the earliest. The School Department continues to be frustrated with this process as there are serious facility issues needing to be addressed at both Sanford High School and at the elementary level.

On behalf of all the Sanford School Department employees and the Sanford School Committee, I would like to thank the community for its ongoing support and assistance. By working together we can help every student in Sanford/Springvale be ready for a productive future. The new Sanford School Department Mission Statement says it best: "Our Mission is to create educational opportunities in which students are productive, caring, informed and involved citizens, and lifelong learners."

Respectfully submitted,
John R. Turcotte,
Superintendent of Schools

Report of the Curriculum Director

During 2007 at the Maine Department of Education:

- The report (*A Look to the Future: Maine Education Reform*) by an outside advisor to the Maine Department of Education, Michael Fullan, was made available in February. Nine recommendations were made to improve education in Maine;
- State law regarding new teacher induction and support was amended in July;
- The revised *Maine Learning Results: Parameters for Essential Instruction* were approved by the Legislature in October; Work continues on recommendations for high school graduation requirements and a time line for their implementation.

During 2007 in Sanford/Springvale:

- Students continued to show increased growth in the areas of reading, mathematics, and language usage based on NWEA's *Measures of Academic Progress*;
- Our gifted & talented program and our after-school program (KIDS CLUB) expanded learning opportunities for Sanford/Springvale students;
- Teachers were involved in record amounts of professional development;
- Our NCLB Report Card was published for the first time. In it can be found:
- Student achievement scores on the Maine Educational Assessment (MEA);
- Highly Qualified Teacher (HQT) data; and Information on whether our schools are making *Adequate Yearly Progress* (AYP).

Standards-based education means that all students will be held to the same high levels of achievement. Grade level standards are the same for all but the amount of time it takes for a student to achieve or the way in which a student will achieve may be different from individual to individual. This challenges staff members to teach and assess in new ways. It will also require new ways of reporting academic achievement in the future. Standards-based reporting is scheduled to begin at grades 4, 5, and 6 during the 2008-09 school year.

The School Department continues to partner with community organizations to advocate for unique learning programs, including:

- A Junior Achievement curriculum offered at SJHS by the Sanford/Springvale Chamber of Commerce;
- A coalition of community groups is working to improve school readiness among Sanford/Springvale preschoolers; and
- An effort is underway to focus on adult learning through an *Aspire Higher* initiative.

By working together, we can help every student and citizen in Sanford/Springvale be prepared for a fulfilling and productive future.

Respectfully submitted,
Jan Goldsberry

Report of the Special Education Director

Thank for the opportunity to review the operation of the Office of Special Education for the Sanford Public Schools and related Federal Projects. The division of Special Education is responsible for the identification, programming and transitioning of students with special education needs according to the provisions of State and Federal law.

The division has oversight for Title I ESEA. This program for supplemental educational support in literacy and math began in 1965. In respect for the Sanford School Committee's "Time for Learning", supplemental math instruction is provided after school for eligible students in grades 3 – 6. Literacy support for students in grades K-6 occurs during the reading instruction block, 90 minutes per week. For the past ten years, the Title I federal grant was sufficient to provide a 4 week summer school program to limit regression in basic reading and math skills.

During the 2006 – 2007 school year, 684 students were served through special education programming provided through the Sanford School Department. This includes 15 students who were evaluated and found ineligible for services. Included in this number are 50 students who entered kindergarten already identified for Special Education. The number of students who required out of unit placement for needs so significant that they could not be met within the public school decreased from 16 to 12.

We are grateful to the Sanford School Committee and Finance Committee for their support of the Special Education budget. The inclusion of a teacher at Sanford High School for students on the Autism Spectrum has made it possible for students with this complex diagnosis to remain within the public school throughout grades K-12. Federal funds through legislation entitled Individuals with Disabilities Education Act, was flat funded in 2006. This legislation is intended to cover the excess cost of education for students with disabilities in our public schools. The legislation has never been 100% funded, and given the hold in funding, will increase the demands on the public schools to cover the costs.

The 2006 – 07 school year included the completion of an extensive State Review of Special Education. All public and private schools serving students with disabilities are evaluated every 5 years. The district is again in compliance with all requirements found in the State of Maine plan for the education of students with disabilities.

Our Title I ESEA program provided literacy and math instruction to an unduplicated count of 364 students. Summer School participation included 82 students. With the implementation of locally funded full day Kindergarten, Title I services (which previously provided the extended day program) served 20 students. Title I also provided Parent Training in helping parents support students struggling with Every Day Math. Reading Recovery continued to be funded through Title I, with 58 First Grade students served. Our outreach to Early Childhood continues, in hopes of improving school readiness. Third grade students who received Title I services went to Sanford Head Start to read to the children from Reading Is Fundamental books. Title I continues to support students at St. Thomas school in literacy and math, in programming similar to that provided to public school students.

Title I services are required to be provided to students who experience homelessness within our schools. It is significant to note that there was a 100% increase in students who were homeless during the 2006 – 07 school year. Thirty four students were identified as homeless, and received various supports from Title I.

In June of 2007, The Maine Department of Education released the 2007 Maine Special Education Regulations. We anticipate a busy year completing activities in Special Education to become compliant with these new requirements.

Respectfully submitted;

Elizabeth J. St.Cyr

Report of the Technology Services Director

The Technology Department continues to be a vital part of the education process in the Sanford School Department. With an emphasis on communications between the school and the parents, the Parent Internet Viewer was available at mid year for parents of high school students. Parents may view student assignments, grades, and reports in order to stay informed about their child's progress. All schools are using an electronic grade book (Excelsior Software®) to track student attendance, with the high school and junior high school in the 3rd year of using this program for grades. The ability to deliver the new web based electronic grade book is due in part to the installation of a fiber WAN. Metrocast Cablevision provided the fiber network to connect all schools. This network will also provide the conduit for a new phone system and will allow for some consolidation of equipment and resources.

One computer lab (room 11) in Sanford High had all equipment replaced and 23 of the older computers were relocated to provide better computers for the teacher classrooms.

All elementary schools received replacement equipment with Emerson, Lafayette, and Margaret Chase Smith each receiving 5 machines. Carl J Lamb and Willard School both received 10 replacement machines and 10 machines were retired and used for parts. The wireless networks at Carl J. Lamb, Lafayette and Willard were replaced with new Cisco© networks. The wireless projects were funded at 80% under an earlier E-rate proposal.

The Junior High School enjoyed its first full year with new "MLTI" laptops. All 530 students were assigned a new machine in the fall. The state owned MLTI laptops are G4 iBooks and are loaded with software also licensed and owned by the Department of Education. These new machines and the new wireless access points installed by the Department of Education provide a robust wireless network that is used by students for research, communication and sharing of resources. The new network also allows for completion of the NWEA tests in a wireless environment, saving precious setup time for staff. Students continue to improve their skills and learn with technology, using resources that might otherwise be unavailable. Their work continues to lead them through activities that will help them meet the objectives of the Level III assessment that all students must complete before leaving the Junior High. More details about the 1:1 computing project are available at www.sanford.org.

Respectfully submitted,

Joan Wright

Report of the Carl J. Lamb School Principal

The Carl J. Lamb School had an enrollment of 565 students in grades K-6 during the 2006-2007 school year. The educational staff consists of 26 classroom teachers and several support staff. Support Services include: Art, Music, Physical Education, Health, Library Instruction, Computer Instruction, Title 1 Reading, Reading Recovery, Speech, Special Education Services, Occupational and Physical Therapy.

This was our first year of full day Kindergarten classes in Sanford. One hundred and twenty four five year olds started the school year in our full day program. Teachers were able to extend literacy and math instruction blocks significantly to expose children to skills necessary to provide a basis for future school successes. End of the year testing indicated that all kindergarten students made significant progress this year at CJL.

CJL completed the third year of a three year Reading First Grant for grades K-3 and applied for a fourth year extension with 95% teacher support of the process. The funding from the grant provided a reading intervention specialist, consumables for the scientifically based reading program, and on-line DIBELS (Dynamic Indicator of Basic Early Literacy Skills) assessment through the use of palm pilots by classroom teachers.

Six software licenses for the Waterford Early Reading Computerized Program and laptops were purchased this year to use as an intervention program for selected K-3 readers. The Waterford Program design motivates students with software and print that individualizes instruction precisely, using embedded assessment and responsive sequencer software during a 25 minute reading lesson.

The 21st Century Grant funded the Kids Club after school program for students in grades 4-6 for a third year at Carl Lamb School. Homework and skill practice is scheduled for the first half of each after school session and enrichment activities are offered during the second half of each session. Kids Club offers an experiential, hands-on approach to education for the fortunate youngsters who participate in the program.

The PTG planned activities for families and supported extra curricula activities for our students. Family movie and fitness nights were a big hit with parents, children and staff. Chewonki Science School, the Star Science Planetarium, and the Penobscot Theatre spent extended time exposing our students to new concepts.

The Carl Lamb School staff is proud of the academic progress our students have made in all academic areas. Our NWEA and MEA test scores continue to show steady growth and continue to encourage Carl Lamb Staff that we are providing students with a sound education. We wish to thank the Sanford/Springvale community for their on going support of our school.

Respectfully submitted,

Deborah Gaudreau

Report of the Emerson School Principal

Approximately 110 Sanford children attended school at Emerson this year in grades one, two, and three. We have eight classrooms, two of which are multi-level, special education classrooms. Class sizes have been a little smaller this year than in years past and the staff is delighted with the progress that students are making.

The children in grades two and three receive instruction in computer literacy every week and those are much anticipated classes. In addition, our children have health classes with a certified health teacher, as well as music, physical education, library and art. We are always mindful of the requirements of the Maine Learning Results. At the same time, it is our belief that a strong foundation in literacy and math during these early years is the best gift we can give our students. As a result, we look to connect content area teaching with literacy and math.

In addition, the computerized data available to us through NWEA testing has enabled our teachers to become more specific in addressing student learning needs. Teachers have been working hard administering and scoring assessments in most content areas, creating an even greater consistency across grade levels than we have had in years past.

Early release days for students allowed all district teachers to meet by grade levels and work on consistency of instruction from one building to another. The benefits of the equalized instruction also assist our work with students who move within the district during the year. A placement at a different school still allows for the same method (s) of instruction within our curriculum.

One of our most valuable assets is the group of parent volunteers from the Emerson community. Their commitment to education and assistance when called upon has been immeasurable. We thank them for their generous help throughout the school year.

Respectfully submitted,

John Leggett

Report of the Lafayette School Principal

Approximately 110 Sanford children attended Lafayette Elementary School in 2006 – 2007. At each of the three grade levels (grades one, two, and three) we had two classrooms.

At the first and second grade levels, the four teachers have been team teaching. The children receive literacy instruction and social studies in one classroom, and move to a different room and teacher for math and science instruction. Everyone has been very happy with this arrangement and we expect to see increased student achievement as a result of this plan.

To coincide with the regular classroom instruction, children in grades two and three receive weekly instruction in computer literacy. These are much anticipated classes. In addition, all our children have health classes with a certified health teacher, as well as music, physical education, library and art. We are always mindful of the requirements of the Maine Learning Results. At the same time, it is our belief that a strong foundation in literacy and math at these early years is the best gift we can give our students. As a result, we look to connect content area teaching with literacy and math.

The computerized data available to us through NWEA testing has also enabled our teachers to become more specific in addressing student learning needs. Teachers have been working hard administering and scoring assessments in most content areas, creating an even greater consistency across grade levels than we have had in years past.

Early release days for students allowed all district teachers to meet by grade levels and work on consistency of instruction from one building to another. The benefits of the equalized instruction also assist with students who move within the district during the year. A placement at a different school still allows for the same method(s) of instruction within our curriculum.

One of our most valuable assets is the group of parent volunteers from the Lafayette community. Their commitment to education and assistance when called upon has been immeasurable. We thank them for their generous help throughout the school year.

Respectfully submitted,

John Leggett

Report of the Margaret Chase Smith School Principal

Margaret Chase Smith School has a population of 356 students in grades kindergarten through three. The educational staff consists of: six kindergarten teachers, three first grade, four second grade and four third grade teachers; and a support staff of twelve. Other academic services include: Art, Music, Physical Education, Health, Computer Instruction (for grades one through three), Title 1 Reading, Speech, Special Ed. Services, Occupational and Physical Therapy and Reading Recovery. This year, we also welcomed a developmental kindergarten program to our building.

The Title 1 math program is in its second year and serves students in grades two and three. These students are identified through test scores to receive extra services after school two days per week. Children start with a snack and a math game, and then work with one of three teachers to practice their math skills. Every other week they used the computer lab as part of their practice time.

As part of our academic instruction, MCS students continue to use the Everyday math program and Maine Literacy Partnership framework for reading and writing. Students not only participate in reading and writing activities but also reading buddy and literature circle activities. Third graders receive instruction from a science teacher who travels throughout the district. Students continue to participate in district assessments through computer as well as paper and pencil activities. Third graders took the MEAs for the first time this year, as the state now requires that test for grades three to eleven.

Our PTG continues to be a very active part of MCS. They hosted their second annual Halloween party and did it in two different sessions because of the number of families that attend this event. The PTG also sponsored a "Shop Til' You Drop" event in December and a family night at a Sea Dogs game in May. The students sang "Take Me Out to the Ball Game" during the seventh inning stretch!! It was a fun event.

MCS staff also continues to support a wide variety of activities for the students including: an annual Veterans' Day ceremony (attended by the Rolling Thunder and other Veterans), the Terrific Kids Program (sponsored by the Kiwanis), bus and fire safety; individual class trips (to the Planetarium, Gray Animal Farm, and the Merrill Auditorium), and other events that support academics. They set up another Reading Challenge with other elementary schools in Sanford, as we all "Read Around the World". The students were encouraged to use their 20 minutes of reading every night to fill their "suitcase shaped" reading logs and list some of the countries that their stories may have been from. A large world map hung in the main hallway and different colored pins (for each grade level) indicated countries that stories came from. There were hundreds of pins by the end of the year!!

We ended this successful reading program with a school wide barbeque to honor the readers, our volunteers, and Terrific Kids during the last week of school. Workers from Hannaford again provided balloons for the festivities and helped serve our students. We also had well over a hundred parents join us for lunch again this year – it was a great way to end the program and our school year.

Respectfully submitted,
Sharon Remick

Report of the Willard School Principal

For the 2006-2007 school year, we at Willard School continued our focus on creating a safe healthy learning environment for all 481 students in grades 4-6. Our main focus for the school year was to further address bullying prevention. This was achieved by having our school guidance counselors work with us during staff meetings on strategies to empower the bystanders. Research indicates that to truly change a culture where bullying behaviours exist, it is necessary to educate and empower the bystanders to speak up whenever a situation with bullying behaviours are observed.

The 21st Century Grant continues to fund the Kids' Club after school program for students in grades 4-6. During the first half of each after school session, students are assisted with homework and then they participate in engaging enrichment activities for the remainder of the session. There was a slight decline in Kids' Club participation this year but we attribute this to a change in the program director which resulted in a late start up for the program. Student participation will be monitored for the coming school year to determine whether the enrollment numbers have increased or declined.

This was the second year for Willard School's Student Assistance Team (S.A.T.). The S.A.T. is a group made up of classroom teachers, special education teachers, a guidance counselor, a building administrator, an educational technician, and a special education social worker. The S.A.T. assists teachers who are having difficulty meeting a child's emotional, social, or academic needs with his/her current teaching practices. The previous year's team members received two days of training free from the Maine Department of Education. After piloting strategies and procedures learned during their training, our S.A.T. was ready for full implementation.

The district wide Gifted and Talented Program for students in grades 3-12 is in its second year and is currently being coordinated at Willard School by Mrs. Fern Brown. The selected students and their classroom teachers are supported with resources and methods to compact the curriculum as a way to differentiate instruction. Mrs. Brown has also coached our 5th and 6th grade Math Teams which compete in a math league with meets held at the Portland Expo. We are proud of how our teams continue to finish in the top half of the competition.

This year classroom teachers designated collaboration time to better address the academic needs of Willard School students. During collaboration time teachers work together to review Maine Educational Assessment (MEA) data and North West Educational Assessment (NWEA) test results and use the information gathered to determine areas of the curriculum that need to be strengthened and taught harder. Teachers then collaborate to create lessons to meet these needs.

We believe the changes and opportunities that occurred this school year will make a difference in our students' lives.

Respectfully submitted,

Chuck Potter

Report of the Sanford Junior High School Principal

Addressing Higher Standards for all Students

We are addressing several “big” issues at Sanford Junior High School regarding instructional improvement for the 2006-07 school year. Student learning has been impacted by our work with the data from the NWEAs and the school wide literacy strategies. We have addressed literacy concerns by employing specific training and teaching strategies and we are using NWEA data to determine reading, writing, and math ability which will allow us to address the needs of our students more effectively. We have established classrooms where teachers are beginning to experiment with re-grouping students within classes and within the learning community in order to address learning needs. Students in every class are learning and applying literacy strategies that are consistent and cross content. Students are reading materials at their independent and instructional levels and getting math instruction that closes any skill gaps that the data reveal.

Additionally, we now have classrooms where students are actively involved in their own learning: they question, explore, research, and evaluate their work, focusing on their goals and preparing for their exhibitions at student-led conferences. The students can now articulate what they know, and they can show what they can do.

We added algebra classes aimed at addressing the number of junior high students who meet the gifted and talented screening standards in math. This screening resulted in our developing a program involving two seventh grade sections and two eighth grade sections. Our next step will be to look at the other content areas and develop a plan to meet student needs.

In order to promote equity, a personalized learning experience and appropriate intellectual challenge for each student, we:

- place students heterogeneously, with attention to teacher recommendation, learning style, social/emotional concerns;
- use differentiated instruction;
- have an after-school program with late busses that allow students to stay after for academic and social activities.

We believe all students can learn when the professional learning community has the belief of caring and mutual concern for the individual student. The school mission is not only content of the curriculum but the quality of connections between the teachers and the students. As a result, the students believe that they are recognized, respected, and valued. With these improvements, our teachers are in a position to make a difference in students' lives.

Respectfully submitted,

Becky Brink

Report of the Sanford Community Adult Education Director

1800 adults in the greater Sanford area took more than 3600 classes through Sanford Community Adult Education in the 06-07 fiscal year. This was an increase of 7% over 06-07.

The enrichment program continued to thrive this year. Beading classes, computer classes and basket weaving continue to be a big success. Bus trips continued this year. Trips were taken to Boston to see Wicked, and to go shopping. We also took our second overnight trip to NYC over Patriots Day and still had fun in the pouring rain.

The academic programs are continuing to grow. 30 people completed Certified Nursing Assistant training through adult education this year, 15 people completed one or more certificates through the Office Skills Certification Program and 60 students graduated with high school credentials. Professor E. Michael Brady was the graduation speaker.

SCAE received a \$30,000 grant from the state government to run a College Transitions Program. Our program is called "The ROAD to College Certificate Program" ROAD stands for Removing Obstacles, Achieving Dreams. We had 10 students begin the program, 2 completed their certificates by June.

In the fall of 2006 Linda Lavertu was named Adult Education Teacher of the Year, and Kathi Medcalf was named Director of the Year by the Maine Adult Education Association.

SCAE's Family Literacy Program Families READ continued to thrive during the 06-07 year. During the summer of 2006, the house built by SRVC during the school year was purchased and moved to the Lincoln School site to be used as a childcare building. During the 06-07 year, students from the SRVC Building and Trades program were bussed over to complete the building.

SCAE had the Adult Education Distinguished Educator work with them over the course of the year on curriculum development. In addition SCAE piloted state curriculum in English.

The SCAE Advisory Board continued to meet and work on strategic plan goals. We are always looking for new members on the board. Please call SCAE if interested.

SCAE's motto: "Quality offerings from quality people for over 100 years" is the belief we live by. Please visit www.sanfordlearns.org for more information or call us at 490-5145.

Respectfully submitted,

Kathi Medcalf

Report of the Sanford High School Principal

Sanford High School enrolled over 1435 students during the 2006-2007 school year and graduated 288 in June. Students continued to perform well in all aspects of school life. Sanford High School sends students to some of the most respected colleges, universities and vocational training programs in the country. Our Guidance Department has expanded the "Early College" experience as more students take advantage of college courses that are available from the university system at a variety of locations and on-line (Academe', University of Maine). Our new Career Center is allowing more students access to "Beyond High School" search tools and support. As can be seen by the data noted below, our post secondary attendance rate continues to grow. We understand how important it is for every child to receive some type of formal education beyond grade 12.

It is suggested that parents require their children to challenge themselves in the most rigorous courses deemed appropriate. While the college prep track remains the most common choice for our students, courses are available for those who are ready for honors and advanced placement. The program of studies offers a comprehensive curriculum of approximately 150 courses within ten disciplines. Courses are offered beginning at the basic level through advanced placement. In addition, academic support is available in a variety of settings within our school.

The current "Freshman Academy" continues to be an effective strategy as a transition program following junior high school. SY 2006-2007 data informed us of the decline in failures and disciplinary referrals. Teamed teachers continue to plan and work together while getting to know each individual student in a more "personalized" setting. SHS is gearing up for the "Sophomore Teaming Experience" in the 2007-2008 school year with a goal to continue the positive trends for grade 10 students.

The College Board is requiring all teachers of Advance Placement courses to complete an audit of their entire curriculum. This audit will be completed by the beginning of the 2007-2008 school year. Each course will need to receive a "pass" to continue using the AP designation.

During the 2006-2007 school year, the Sanford High School faculty, staff and administration focused on strategies to enhance achievement for all students. Our classroom teachers and support personnel continue to work very hard at meeting the needs of all our young adults. As is customary, a large percentage of graduates in 2007 continued to pursue post secondary opportunities as described below. We are beginning to see an upward trend in students interested in education beyond grade 12.

Four-Year Colleges		44%
Two-year Colleges/ Other Schools	26%	
Employment		18%
Military	2%	
Other		10%

As explained in our 2005-2006 report, The PSAT is a required assessment for all sophomore students and has been paid for out of grant money from the school department once again. These scores will help predict future success on the SAT in the students' junior year and inform us regarding curriculum needs. The SAT was named by Maine's Commissioner of Education as the State Assessment for Maine's third year students. Though this assessment which tests critical reading, writing and math reasoning will be exceedingly difficult for many of our students, we will work long and hard to bring about forward progress. A dedicated group of faculty members has volunteered to teach the skills necessary to improve our students' scores on the Scholastic Aptitude Test. Select faculty members have received training and professional development to enhance their skills as they, in turn, train SHS students for the Maine High School Assessment.

We are in our second year with a new computer lab created to provide freshman students with the necessary technology for writing, word processing and research. The computers have become part of the "Freshmen Seminar Course" which was created to assist students in their transition to the rigors of high school and to provide resources for future success.

The faculty and staff at SHS continue to work on the recommendations received from our re-accreditation visit in the spring of 2004. NEAS&C strongly noted the need for school officials to clarify how and when the school plans to resolve on a permanent basis each of the identified facility deficiencies. Our steering committee is currently preparing for the five year review. This review will include a report on progress made in all recommended areas through the 2007-2008 school year.

At graduation ceremonies in June, Sanford High School awarded diplomas to 288 graduating seniors. Nearly \$100,000.00 in scholarship money was donated in support of those furthering their education. It's a practice over the past six years to recognize every student that has applied to the Sanford High School Scholarship Fund.

The Sanford High School faculty and staff are proud of all the accomplishments attained by our students in academic and co-curricular activities. Due to commitment and hard work, the SHS Academic Decathlon and Mock Trial Teams are performing brilliantly in their respective leagues. We are extremely proud of these talented and dedicated students. The Girls Basketball Team continued to impress as Western Maine Class A Runners-up. The girls defended their State of Maine Title with fervor, losing in a close contest in the Western Maine Championship Final to Catherine McAuley High School.

A core group of students from the Vocational School's Horticulture Program spent countless hours throughout the spring and summer beautifying the front entrance of our building. These students partnered with businessmen, faculty and volunteers in the truest sense of "Community Spirit and Pride." Please take a moment to stop by and view their accomplishments.

The faculty, staff and students of Sanford High School wish to thank the community for its continuous support. The positive changes within our walls and the ability to meet the needs of "all students" would be impossible without you!

Respectfully submitted,

Allan H. Young

Report of the Facilities Management Director

The objective of the Facilities Management Department is to meet and exceed the high standards of operations, appearance, and cleanliness required to support the nearly 4,000 students and staff of the Sanford School Department.

The Facilities Management Department is comprised of twenty-nine (29) full time and one half time custodians. It also includes three (3) full time maintenance personnel, a full time Secretary and Maintenance Director. The department maintains eight (8) school buildings which encompasses nearly 485,000 square feet of educational space, worth an estimated total value of \$52,500,000. In addition to the buildings, the district maintains approximately eighty five (85) acres of sports play areas and school grounds.

Both capital improvements and scheduled maintenance requests are tracked, scheduled and completed using a highly productive and effective web based software program called Maintenance Direct. Nearly twenty (20) school departments in the state of Maine subscribe to this service. To date, 300 work orders and 30 projects have been tracked and completed. These numbers are sure to increase as the department continues to improve and maintain the current facilities

As well as the day to day maintenance of the buildings, the Facilities Management Department works closely with the State of Maine, National Fire Protection Association, American Disabilities Administration, Occupational Health and Safety Administration and Maine Municipal Association. Together we work to ensure that all guidelines and regulations for the maintenance of the school buildings are met. The department is required to be vigilant with regard to any new amendments these organizations may adopt, ensuring the high standard of operation for the Sanford School Department.

Respectfully submitted,
Shawn Sheehan,

Report of the Sanford School Nutrition Director

Sanford School Nutrition Programs provide breakfast and lunch for students in all seven of the district's schools. The After School Snack Program provides after school snacks for students enrolled in Kids Club at Carl J. Lamb, Sanford Junior High and Willard Schools.

In 2006/2007, Sanford School Nutrition Programs served 109,000 breakfasts and 375,000 lunches. Forty-three percent of students were eligible for free or reduced price meals.

The Sanford School Department sponsors the Summer Foodservice Program for Children at six sites in the community. Sites are set up where at least 50 percent of students in a school are eligible for free and reduced price meals. Breakfast and lunch was served to children at Carl J. Lamb and Willard Schools as well as to students enrolled in Kids Club at Sanford High School. Lunch was also served to children at Benton and Carpentier Parks and Springvale Playground. The Summer Program served 12,500 lunches and 3,300 breakfasts at no cost to children 18 years of age and under.

Respectfully submitted,
Holly Hartley

Report of the Sanford Regional Vocational Center Director

The Sanford Regional Vocational Center provides career training for students from Sanford High School and six other high schools in York County. Programs offered include:

Automotive Technology
Building Trades
Cooperative Education
Drafting (CAD)
Electronics Technology
Environmental Science
Graphic Communications
Health Occupations
Information Technology
Machine Trades

Media Technology
Welding and Metal Fabrication

Noble High School satellite site

Early Childhood Education
Culinary Arts

Marshwood High School satellite site

Health Occupation Programs

In September two new programs were started: Electrical Technology (Home Wiring) and a Career Exploratory for a limited number of sophomores. At the beginning of the school year there were 494 students enrolled, approximately half of them from Sanford High School.

SRVC is governed by the Sanford School Committee with input from the Superintendents Advisory Board. The Board is comprised of the superintendent and one other individual from each school district. For the last two years the Board has been studying the need for program expansion to meet the needs of both the high schools and the communities. Activities related to the project have included meetings with the Governor, Commissioner of Education and the State School Board. Model programs have been visited in Massachusetts, Pennsylvania, and Oklahoma. A highlight of the year was the passage of a bill which awarded \$10,000 for planning. We would like to thank our local legislators for their support of our bill. This is the beginning of a very long process towards a new larger SRVC.

SRVC students have a strong working relationship with the Sanford community. Students participate in Cooperative Education job placements and job shadowing. Programs at SRVC take on projects in the community. This year the Environmental Science students worked on the landscapes of many school facilities. Building Trades students have been building the child care facility for Sanford Adult and Community Education. The Media and Graphics students have taken on a variety of jobs for groups in the community. The Information Technology students have been rehabbing computers for the battered woman's shelter. There is a new project at the Sanford Airport that is being undertaken by the Drafting and Welding students.

SRVC has two goals for the current school year. The first is to improve the literacy and math levels of all students so that they are better equipped to enter the work force and participate in further education. The second is to implement a MELMAC planning grant. The MELMAC grant allows SRVC to plan activities for students and parents that will encourage post secondary school enrollment. A report of these activities will be included in next year's annual letter.

Residents of Sanford are encouraged to come to the center for a tour. There are many exciting learning activities happening daily.

Respectfully submitted,

Deborah Guimont

TOWN OF SANFORD

FINANCIAL STATEMENT PRESENTATION

June 30, 2007

Financial Overview

Presented by:
Greg Chabot

RUNYON KERSTEEN OUELLETTE

Recently, the Town of Sanford completed the financial audit process. The Town has received an unqualified opinion for fiscal year 2007.

Further, the Town had one significant deficiency required to be reported under *Government Auditing Standards* and two findings related to its administration of federal awards.

The remainder of this publication is dedicated to providing you with the financial results for fiscal year 2007 as well as trend information for certain areas.

Key Performance Indicators

General Fund Assets

INSIDE

1. Assets
2. Liabilities And Fund Equity
3. Revenues Table
4. Expenditure Table
5. Fund balance analysis
6. General Fund revenues and expenditures
7. Components of net assets and reconciliation
8. Comparisons to other municipalities

SUMMARY OF SIGNIFICANT CHANGES

- The increase in cash of over \$787K is mainly attributable to revenues exceeding expenditures during the year. The cash balance is shown net of interfund receivables and payables so that it reflects the true General Fund cash position.
- A/R have decreased due to timing differences.
- Taxes receivable have increased due to an increase in the commitment. The collection rate is down slightly.

Runyon
Kersteen
Ouellette

Town of Sanford

TOWN OF SANFORD

GENERAL FUND LIABILITIES

SUMMARY OF SIGNIFICANT CHANGES

- Changes in accounts payable and accrued liabilities are simply a result of the timing of payments at year end.
- The largest component of accrued wages is teacher summer salaries (\$3,606,853). Teacher summer salaries represent payroll earned prior to June, 30 2007, but paid in July and August of 2007. This amount is not accrued for budgetary purposes.
- Deferred revenue represents taxes still unpaid 60 days after the end of the year. These amounts are not recognized as revenues in the current year.

GENERAL FUND BALANCE

SUMMARY OF SIGNIFICANT CHANGES

- Designated fund balance changes annually based on the status of capital improvements as well as amounts used toward the subsequent year budget. Detail can be seen in the notes to the financial statements (page 29).
- Undesignated fund balance (town and school) has increased by \$546,812 as a result of operations. Total fund balance increased by \$730,857. Undesignated fund balance is 9.25% of general fund budget at 6/30/07. RKO typically recommends approximately 8-16% of budget or one to two month's expenditures.

TOWN OF SANFORD

GENERAL FUND REVENUES

	<i>Budget</i>	<i>Actual</i>	<i>Variance</i>
<i>Taxes</i>	24,256,038	24,298,088	42,050
<i>Licenses, permits and fees</i>	908,737	1,233,450	324,713
<i>Intergovernmental</i>	23,845,117	24,206,680	361,563
<i>Investment income</i>	204,000	621,369	417,369
<i>Other</i>	96,506	369,094	272,588
<i>Total revenue</i>	49,310,398	50,728,681	1,418,283
<i>Transfers in</i>	34,760	34,760	-
<i>Issuance of Bonds</i>	1,000,000	1,000,000	-
<i>Budgeted use of fund balance</i>	2,058,771	-	(2,058,771)
<i>Total revenue and other sources</i>	52,403,929	51,763,441	(640,488)

SUMMARY OF SIGNIFICANT VARIANCES

- Licenses, permits and fees were over budget primarily as a result of ambulance fees exceeding estimates by \$238K.
- Intergovernmental revenues came in over budget due to receiving more education subsidies than anticipated.
- Investment income had a positive variance due to higher than anticipated interest rates.
- Other consisted of sale of surplus property of over \$214K.

TOWN OF SANFORD

GENERAL FUND EXPENDITURES

	<i>Budget</i>	<i>Actual</i>	<i>Variance</i>
<i>General government</i>	4,654,795	4,634,556	20,239
<i>Public services</i>	1,767,101	1,744,446	22,655
<i>Public safety</i>	6,194,804	6,278,862	(84,058)
<i>Public works</i>	3,643,600	3,659,761	(16,161)
<i>County tax</i>	673,279	673,279	-
<i>Education</i>	32,422,512	31,936,322	486,190
<i>Other</i>	427,759	221,546	206,213
<i>Capital improvement</i>	1,887,389	1,124,710	762,679
<i>Debt service</i>	732,690	731,824	866
<i>Total expenditures</i>	52,403,929	51,005,306	1,398,623

SUMMARY OF SIGNIFICANT VARIANCES

- Detail for departmental expenditures can be seen starting on pages 39-41 of the financial statements
- The favorable variance in capital improvements has been carried forward for ongoing projects as designated fund balance.
- Overlay/abatements were budgeted expenditures of \$200,860 vs. actual of \$0. All other expenditure variances were under 10%.
