April 27, 2016

**TO: BROOK STREET RESIDENTS WITH ADJACENT INFRASTRUCTURE**

**RE: BROOK STREET REHABILITATION (FROM RIVER ST. TO COTTAGE ST.)**

The Department of Public Works has begun pavement removal on April 25, 2016 on Brook Street as part of the full reconstruction effort as previously described in my letter to you on March 9, 2016.

Your property has been identified as having sensitive areas or infrastructure (i.e. stairs or a retaining wall) immediately abutting the back of sidewalk where the proposed work will tie into.

We have retained the services of a landscaping and masonry professional for work on this project. They are currently scoping the need of your residence in order to develop a preliminary cost estimate. Depending on the existing conditions and any issues resulting from the removal of the adjacent sidewalk, the City may consider participating in these costs.

We need to coordinate directly with you in order to achieve the best result for this work as possible.

Please contact me at your earliest convenience at (207) 324-9135 x 1.

Sincerely,

A handwritten signature in black ink that reads 'Matthew E. Hill, P.E.'.

Matthew E. Hill, P.E.  
Director of Public Works  
City Engineer
