

SanfordTM Seacoast Regional Airport

M. Allison Rogers
Airport Manager

Sherry A. Lord
Assistant Airport Manager

As the Beacon Turns Manager's Monthly Report November 2013

Quick Notes:

- **Our new crack seal machine continues to impress.** In discussions with my maintenance department we have found that the machine will provide a substantial cost savings to the airport, paying for itself in about 3 years with respect to what equivalent work would cost us completed by an outside contractor.
- **Completed first draft of new Spill Prevention Control and Countermeasure Plan.** The Stormwater Pollution Prevention Plan has been sent back to me from DEP with comments, so the review and finalization of that is on my short list. I hope to have both documents finalized by the end of the year.
- **I presented** at the **Sanford Rotary** Meeting last week on SFM at the present and in the future. I was met with positivity and constructive thoughts and questions.
- Progress has been made regarding the **new airport sign**. An easement has been drawn up to be signed by H. A. Mapes, the property owner. We will then begin the purchase/ construction/ installation process. I aim to have the sign installed once the cold weather clears in 2014 and have made it one of the airport's goals.

Your airport manager,

SFM
